# La description

The Focus Power 36 is a stylish, high-performance motor yacht, built to cater for the mixed recreation of the modern powerboater. Designed by acclaimed naval architect, Tony Castro, it features a range of living and entertaining zones for the ultimate combination of feel-good summer sport and practical long-distance cruising.

## EXTERIOR

With its raked hull windows, swept screen and colour-matched hardtop, the FP36 delivers an unforgettable on-water profile. Hand built and highly customizable, its potency of form is mirrored by a reinforced deep-V hull for best-in-class seakeeping and industry-defining 50-knot performance.

## COCKPIT

The versatile cockpit is keenly optimized for open-air recreation. In addition to a forward sunbed and secure walkaround side decks, it features a port galley, a six-person dining station, a two-metre sun lounger, an aft 'Beach' and a large canvas sunroof for socializing under the sun.

## INTERIOR

The interior layout is ideal for weekends away, extended cruises or even commercial charter. While the private double cabins are split by a spacious central lounge, the use of expansive glazing panels and highly bespoke finishes lends the entire living space a bright 'waterfront apartment' feel.

## Focus Power 36 Custom Edition

With its jet-black hull and topsides, contrasting with teak decks and custom steelwork, this custom edition of the FP36 is unquestionably a beautiful boat and the fit-out is also first-class. Both the lower deck spaces and the cockpit seating are lined with Italian leather and all the equipment is sourced from the world's most exclusive brands.
